Planning your Above Ground pool 9/26/05

This sheet was designed to help you organize and plan the BARRIER requirements for pools.

Property Address _____

(Please cross out one)

Homeowner **or** Contractor _____

Contact phone number _____

Pool Safety

Sec. 29-265a. Permits for swimming pools. (a) As used in this section, "pool alarm" means a device which emits a sound of at least fifty decibels when a person or an object weighing fifteen pounds or more enters the water in a swimming pool.

(b) No building permit shall be issued for the construction or substantial alteration of a swimming pool at a residence occupied by, or being built for, one or more families unless a pool alarm is installed with the swimming pool.

I will install a pool alarm according to CT General Statutes Section 29-265a Please sign below

ALL information/items below **Must** be provided on **Your** plan

Barrier Planning & Pool placement

Show the Height of the pool walls. _____

Show minimum horizontal clear distance around pool that maintains a height of 4 ft. _____

Show location of ladder or steps into pool & barrier around them. _____

Show location of any angle braces needed to support pool & barrier around them. _____

Show the location of any permanent structures, equipment, rock wall stump or similar objects that may be used to climb the barriers. _____

Show location & horizontal distance of pool filter to pool. _____

Electrical Equipment Planning

Show location of any electrical conductors over or under pool. _____

Show location & horizontal distance of any switches within 5 ft. of pool. _____

Show location & horizontal distance from pool to pool pump timer. _____

Show location & horizontal distance from pool to pool pump receptacle. _____

Show location & horizontal distance from pool to General Purpose Receptacle. _____

Show type of cord cap (plug) for pool pump motor you will use. _____

Show type of cover used for pool pump receptacle. _____

Show voltage of pool pump motor. _____

Show type & size of conductors used for pool pump motor & General Purpose receptacle. _____

Show wiring method used for pool pump receptacle & General Purpose receptacle. _____

Show location & burial depth of conduit if used. _____

Show size & type of conductor, and connector used for bonding of pool. _____

Show location of any equipment associated with the pool. _____

Show maximum length of motor cord if cord connected. _____
