

PUBLIC NOTICE - 2022 HYDRANT FLUSHING PROGRAM

The Bethel Water Department will begin its 2022 hydrant flushing program starting Wednesday, June 1, 2022 and it is expected to take approximately four weeks to five weeks to complete.

Hydrant flushing is necessary to improve water quality and fire protection throughout the system. Hydrant flushing may cause temporary discolored water and/or pressure fluctuations. The discolored water is due to the removal of accumulated sediment, predominantly naturally occurring minerals, such as iron and manganese. Hydrant flushing provides an opportunity to check the mechanical operation of the hydrants, as well as the available flow.

Customers are advised to check the color of their water before using and avoid using hot water, washing machines or dishwashers during periods of temporary discolored water. If discolored water is experienced, flush from the cold tap in the bathtub or outside spigot until it clears.

A list of streets to be flushed with an approximate schedule is posted here and is subject to adjustment as the program progresses.

Week 1 (June 1 thru June 7)

Maple Ave
Ballfield Rd
Maple Ave Ext.
Grandview Ave
Kayview Ave
Brookwood Dr
Plumtrees Rd
Whittlesey Dr
Reynolds Ridge
