**NEW BUSINESS:**

Enforcement:

IWV-2019-02 Henry Street #32 – Placement of millings within Regulated Wetlands Area and Regulated Upland Review Area.

Agent McCollum received a complaint at the end of 2019 regarding a pile of millings and several dumpsters on site near the Sympaug Brook. He reviewed photos of the violation and aerial maps of the area for reference with the Commission. An "Order to Correct" was issued on July 7, 2020.

Arthur Horan spoke on behalf of Shepards Warehouse, stating all corrections have made by Shepards with the removal of the millings and dumpsters. He stated an email was sent today with photos of the area involved and reported Shepards had a Phase II Environmental done in June 2020. Agent McCollum will forward the documents to the Commission for review.

Agent McCollum questioned the Commission to see if they wanted a site walk or have the Agent handle the site walk administratively to verify the corrections are completed. The Commission determined to verify administratively. Agent McCollum will report back at the next meeting.

P. Perrefort requested signage be installed to prevent any further incidents. Agent McCollum will have Shepards install shields to demarcate the Wetland boundaries.

**ADJOURNMENT:**
