Re: 72 Reservoir St site plan

From: Thomas Galliford, Fire Marshal *TG*

In reviewing the revised Site Plan for the above-mentioned proposal, there is no concern about fire department access to and around the duplex dwelling units.

The street addresses shall be determined by the Building Official and Fire Marshal to ensure proper identification in the event of an emergency. The Assessor's GIS data has an address of 72 Reservoir St, however, the homes are situated and accessed from Knollwood Drive. This could cause confusion in an emergency, and proper addressing approved by the Building/Fire Marshal office is required prior to construction.

Any blasting operations will require a blasting permit from this office that conforms to the State of CT rules and regulations concerning blasting operations.
