**Subject:** New Traffic Car

Hi Brad,

I have attached the requested documents. The total cost for the vehicle, equipment replacement and installation is 49,614.37. Minus the insurance check (20,703)... the amount we would request from the Town is 28,911.37. There is still some money to recoup from insurance for equipment damaged in the accident which is about \$2,183.21. Let me know if you need anything else. Thank you!

FYI, this vehicle is 3K less than an Explorer so there is some savings there.

Sincerely,

Michael J. Libertini
